REAL ESTATE

Is the best of investments. No city in the world has so bright a future as Honolulu, and if a person uses judgement in buying he should be able to provide well for the future if he invests his savings in Beautiful Kaimuki.

With the coming of Uncle Sam to Pearl Harbor, the opening of the Panama Canal and the general development that is bound to follow a careful realty investment is bound to be worth many a sacrifice.

REPUBLICANS
FEEL MUCH MORE
CONFIDENT

ARE HOLDING RECORD-BREAKING MEETINGS, WHILE DEMOCRATS MEET MUCH HOSTILITY.

The Republican meeting at Waikehu last night was a record-breaker, both in the size of the crowd and in the manifestations of support of the Republican party. Considerably over a thousand people gathered in front of the speakers. Of course many were from Honolulu and a large number were Japanese who are not voters, but nevertheless there was a complete turnout of the voting population, the Portuguese being specially strong.

Major Camera and Representative A. D. Castro addressed the crowd in Portuguese. Numerous other speeches were made by the various candidates.

At Republican headquarters there is considerably more confidence just now than there has been. The scare of a couple of weeks ago has given way to a feeling that the tide is turning. The first few days of the real campaign have greatly encouraged all the candidates.

A significant sign of the times is the frequent showing of opposition from the audiences that greets the Democratic speakers. Last night's Democratic meeting in the Punchbowl district was almost broken up by discussions in the audience, and the programme of speaking could not be carried through as arranged.

PLANS TO HELP
HOMESTEADERS

(Continued From Page One.)

do this work at their own expense and at a certain loss to themselves.

"4. That the benefits to be derived from establishing such an agency will be general to the community as a whole, and that it, therefore, is appropriate that the expense of establishing such an agency should be borne by the community as a whole.

"Until appropriations are available for furnishing the special plant necessary to carry out the project on a commercial scale not much more than a beginning can be made, but your committee are of the opinion that so vital not only to the success of immigration but also to the welfare of the present residents of the territory is the solution of this problem, no unnecessary delay should be allowed in at least beginning operations for the purpose of gaining experience as to exactly what is needed.

"Your committee recommend accordingly:

"1. That a carefully considered detailed plan for the creation of such an agency as is here suggested be worked out for submission to the next legislature, with a view to securing appropriations to make it effectual.

"2. That work be begun immediately in a small way, through the co-operation of the Board of Immigration and the superintendent of public works, possibly with the use of the government market building in Honolulu, thereby giving more earnest and ultimate success than through a project attempted on a large scale to begin with.

"3. That as one of the terms of the act providing funds for the Board of Immigration makes the function of the Board, 'encouragement of immigration to the Territory of Hawaii and aid and development of the agricultural resources and conditions,' and as in the opinion of your committee nothing will so encourage immigration and aid in the development of the agricultural resources and conditions of Hawaii as the creation of the market agency above suggested, we further recommend that the Board of Immigration be requested, under the authority quoted, to gather information and to devise means for effectuating the measures suggested, for the purpose of presenting a report to the legislature; and also if possible that funds be provided immediately to employ a qualified agency, preferably a man experienced in the fruit and produce business in California as well as familiar with conditions in Hawaii, to receive and market consignments of produce from small farmers in the territory pending the establishment of a regular agency by the legislature or by other means."

The report was signed by Victor S. Clark, Marston Campbell, E. V. Wilcox, James A. Kennedy, Gilbert J. Waller and L. A. Thurston.

CALLS FOR CHEERS
"NOTHING DOING"

The King street soap box orator of yesterday had a large audience at noon again today, and he talked for a long time. A part of his address was a roast of The Star. At the conclusion of his remarks he asked all present to join in three cheers for the Democratic party. The result was a surprise all round. A good deal less than a quarter of the crowd responded, the cheers being confined to a small corner of the gathering.

THE STOCK
NOT GOOD

LANAI COMPANY WANTS DAMAGES ON ACCOUNT OF SHIPMENT OF MARES FROM COAST.

Proceedings have been begun by the Lanai Co., Ltd., for the recovery of \$6,800 from Harry S. Landis for damages alleged to have been caused the plaintiffs by the defendant.

According to the complaint defendant undertook to purchase eighty brood mares for the plaintiffs, and deliver them to H. Hackfeld & Co., San Francisco, for shipment to plaintiffs here. The rate was not to exceed \$75 per head, and the animals were to be shipped by the Hilonian.

The contract, however, it is asserted, was not carried out in its entirety. It is true that the animals were shipped by the Hilonian, that the Hilonian arrived here, and that the price did not exceed \$75 per head. But these points did not constitute the whole of the agreement.

Sixty-four mares were shipped by the Hilonian on October 8 per Hackfeld & Co., but only fifty-five survived the trip across, for nine of them expired on the way over. There was not one mare fitted for breeding purposes, the plaintiffs claim, and they also state that they did not have an opportunity of inspecting them before they were shipped, in order to ascertain whether the animals would be suitable for their purposes. Plaintiffs claim that they have been damaged to the extent of \$6,800, \$4,800 of which they paid to the defendant, and \$2,000 incurred by plaintiffs in shipping and caring for the mares.

ASKS FOR STILL
ANOTHER TRIAL

E. C. Peters, who appeared for the plaintiff in the recent case of Lau Tong vs. E. O. White, has filed a motion for a new trial. In the last trial a verdict was given for the defendant. Plaintiff claimed a large sum for the loss of services of his son who was killed by an automobile driven by the defendant. The plaintiff's son and another boy were riding a bicycle one day—one on the seat and the other on the handle bars—when a collision took place between the bicycle and an automobile driven by the defendant. The plaintiff seeks to recover from the defendant an amount of money that he calculates he would have received from the boy's services during his minority.

DIVORCE CASES.

The marriage of Jullie Kapka Miu with J. C. Miu has been dissolved, owing to the latter's failure to provide for her. Ella H. Mitchell is seeking a divorce from Albert E. Mitchell on account of his failure to provide for her. She also tells a harrowing tale of his cruelty towards her, and enumerates many occasions that he threatened to kill her, pulled her about the house by the hair, and other little pleasantries that he indulged in when he was so moved. Rita Uesugi is also seeking a divorce from Yojiro Uesugi, because Yojiro has failed to support her.
